Dear Colleagues,

A number of measures have been taken both by Govt of India and by the States to contain nCoronavirus/COVID-19. These include dissemination of Do's & Don'ts, guidelines on wearing of masks, action on various travel advisories, implementation of protocols on surveillance, prevention of hospital infection, discharge policy, clinical management, etc. Kindly visit our website <https://mohfw.gov.in> for details.

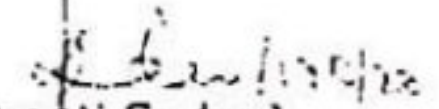

Extensive consultations have been held with public health experts who have suggested to focus on social distancing measures as a preventive strategy to contain transmission of Covid-19. It was brought out that implementation of social distancing measures would have a major impact in limiting the spread and will also provide us with time to strengthen our response framework.

Accordingly, advisory/guidelines are drawn up for further action. While implementing these measures, it is important to educate the community so as to ensure their cooperation and avoid any panic. It is reiterated that these are preventive measures so as to lessen the impact of COVID-19 in the country and are temporary.

I shall be grateful if the enclosed advisory/guidelines are implemented as applicable to your particular Ministry/Department and organizations under you. You may also like to issue your own orders/advisory in this regard. Please direct States implement these effectively.

With collective effort, we will succeed in containing Covid-19.

Yours sincerely,

Advisory on Social Distancing Measure in view of spread of COVID-19 disease

Social distancing is a non-pharmaceutical infection prevention and control intervention implemented to avoid/decrease contact between those who are infected with a disease causing pathogen and those who are not, so as to stop or slow down the rate and extent of disease transmission in a community. This eventually leads to decrease in spread, morbidity and mortality due to the disease.
